Release Notes "Certified Tester Advanced Level Test Analyst Syllabus Version v3.1.2"

This version is an errata fixing minor formatting, grammar and wording defects found in the previous version. The changes have no impact on certifications, training courses, or accreditations.

The new version v3.1.2 of the syllabus is launched on January 31rd, 2022, and replaces the previous versions v3.1.1 and v3.1.0 with immediate effect.

All ISTQB® Member Boards which currently provide the CTAL-TA syllabus in English should replace the previous syllabus versions v3.1.1 or v3.1.0 with the current v3.1.2 version as soon as possible.

All ISTQB® Member Boards which currently provide the CTAL-TA syllabus in their local language should incorporate the corrections where applicable and issue a corresponding errata for their translation as soon as possible.

All ISTQB® Member Boards should inform their accredited training providers about this update and ask them to take responsibility for incorporating the corrections in their training material where applicable. No formal re-accreditation is required.

What has been released

1. A clean version of the CTAL-TA Syllabus Version v3.1.2
2. A markup version of the CTAL-TA Syllabus Version v3.1.2 compared to version v3.1.1.
3. Release Notes (this document).

Syllabus Change log

The changes are documented in detail in the markup version of the syllabus. The changes have been triggered by change requests of the syllabus users.

January 31, 2022
